SEWER CAPACITY CHARGES

CUSTOMER CLASS

CAPACITY CHARGES

Residential:

| | |
|---|---------|
| Single-family dwelling | \$5,943 |
| Multi-family dwelling: | |
| First unit in each building | \$5,943 |
| Each additional unit in same building | \$3,566 |
| Hotel, auto court, motel, rooming house, trailer court: | |
| First unit | \$5,943 |
| Each additional unit or trailer space | \$2,971 |

Commercial:

Regular Strength—Offices, retail stores, schools, hospitals, nursing homes, churches, laundromats, dry cleaning establishments, bars without dining facilities, car washes without auto steam cleaning facilities, other commercial or industrial customers not included in Special Strength paragraph or Case-by-Case paragraph.

..... \$5,943 for the first 1/4 acre plus \$1,486 for each additional 1/4 acre or portion thereof. The entire parcel area is included in this calculation. All lands appurtenant to the premises, including parking areas incidental thereto shall be included.

Special Strength—Commercial laundries, restaurants and bars with dining facilities, service stations with holding tank dumping facilities, car washes with auto steam cleaning facilities, bakeries and food processing, other commercial or industrial customers with concentrations greater than 200 milligrams per liter BOD or 265 milligrams per liter SS, but less than concentrations of BOD and SS specified in Case-by-Case paragraph.

..... \$13,372 for the first 1/4 acre plus \$3,342 for each additional 1/4 acre or portion thereof. The entire parcel area is included in this calculation. All lands appurtenant to the premises, including parking areas incidental thereto shall be included.

Mixed usage—Calculation of connection charges for parcels of property which contain customers in more than one customer class shall be based on the pro rata proportion of building square footage used by each customer class.

..... See Customer Class.

Case-by-Case:

All customers with flows greater than .005 MGD, or with concentrations greater than 650 milligrams per liter BOD or 1,000 milligrams per liter SS; all intermittent users; and any commercial or industrial customer requesting and paying the full cost of projecting flows and concentrations of discharge.

..... \$5,943 times the number of connection units. Contact the District for additional information on calculating the number of connection units and total fees.

Industrial

..... Same as Case-by-Case.
